The infertility industry in the United States has grown to a multi-billion dollar business. What is its main commodity? Human eggs. Young women all over the world are solicited by ads—via college campus bulletin boards, social media, online classifieds—offering up to \$100,000 for their “donated” eggs, to “help make someone’s dream come true.” But who is this egg donor? Is she treated justly? What are the short- and long-term risks to her health? The answers to these questions will disturb you...

Produced by the Center for Bioethics and Culture (*Lines That Divide*, 2009), *Eggsploitation* spotlights the booming business of human eggs told through the tragic and revealing stories of real women who became involved and whose lives have been changed forever.
